

# **AGR3000: Workplace Safety Systems**

## **Course Outline**

**Level:** Advanced

**Prerequisite:** None

**Course Description:** Students gain the attitudes, knowledge, and skills related to workplace health and safety and examine relevant legislation required in the workplace.

**Note:** This course is also the prerequisite course for all off-campus learning experiences.

**Format:** This course is administered using the Learning Management System, SafeGen. Students will receive an email and password to access the course and will work through the course independently.

**Learner Outcomes:** Please refer to each unit for the Specific Learner Outcomes.

### **Evaluation:**

There are 13 units in the SafeGen course, followed by a final exam.

This course will be evaluated by successful unit and quiz completion. After each unit has been completed, students must take a screenshot of their mark in each quiz and upload to their Google Classroom.

**Certification:** Certification is available after successful completion of the course.
